

Woodside School PTA Grant Program Application

In an effort to bring additional opportunities to the students and to assist the faculty and staff in creating an exciting learning environment, the PTA has allocated a fund for the 2023-2024 grant program.

The goal of this program is to bring something special to each classroom and support an entire grade or program. These grants go above and beyond the budgeted program, enhancing the learning opportunities for students within the adopted curriculum. Materials that are essential to implement the core program are to be provided by the school budget. Software and online subscriptions are not eligible for PTA grants.

*The criteria for obtaining grants is based on how it will enhance the existing core curriculum and how all students will benefit from the experience. **Requested fund amounts cannot exceed \$1,000 per grade.** After approval by Steve Frank, Superintendent, grants will be forwarded to the PTA Executive Board for final approval in March 2024. **Grant applications are due by February 29th.***
